SNOW PLOW

If you have marked the ends of your driveway with plow markers, we will NOT be plowing your driveway ends. These markers get broken and caught in our plows, and takes more time for us to repair. If you need the markers please place them 8ft from the end of your driveway.

Beware of Snow Plows

Please be aware of the snow plows! Plow trucks are required to have flashing lights on the top of their vehicles when plowing. If these lights are on be cautious and move away.

When at the end of Cadgewith Boulevard and trying to turn onto state road, if a plow driver is in your way look at them! The driver may signal you to stay or go ahead and turn. The driver may also not see you yet so you need to stay back they may move out of your way so you can see.

Sponsor A Family

We would like to thank everyone who donated a gift or food to the family that we sponsored for Christmas. They were extremely appreciative. Upon meeting the family I discovered that the dad was a veteran who was awarded a "Purple Heart" for his service in Afghanistan and Iraq. They have fallen on hard time with only 1 parent who is able to work only part-time.

The event was such a success we are planning on sponsoring a couple of families next year and maybe also helping with the local Women's shelter. We are open to any ideas you may have for next year. Please feel free to let us know.

Thanks again, have a Happy New Year!!
