

CADGEWITH JOURNAL

MAY 2016

OUR MOTHERS

Mother lovingly watched us,
Anxious if we were late.
In Winter by the window,
In Summer by the gate.
Her thoughts were all so full of us,
She never could forget.
I believe that where she is
She must be watching yet.
Waiting 'til we come home to her,
Watching from heaven's gate.
Dear Father, for our mothers living
We give you thanks and love.
For our mothers departed,
Grant them every prayer. Amen

Cecil Wagstaff &
Anna J. Grannis

FROM THE PRESIDENT

Forty three residents came to our first Potluck of 2016. It was a wonderful evening. Our entertainment was our old friend, Molly Bacon, who gave us great Honky Tonk piano and enjoyable sing-a-long.

Our next potluck will be on May 12th at 5:30 pm. The Cadgewith Farms Association will buy the meat. All you have to do is bring something you would like to share and your personal table service.

Hopefully, all of our snowbirds will be home by then. Come and welcome them back!!!

Our guest speaker will be Brenia Puch. She is from our neighbor, Grainger Container Company. This is a great chance to learn what they are doing over there, how it affects us as a community and what their future plans are. It should be a wonderful evening full of fellowship and good information

Be sure to keep an eye on the Bulletin Board in front of the office to up-date yourself on up-coming events.

God bless,

Larry King ~~~ President

GARAGE SALE

SPRING CLEANING

TIME TO GET STARTED CLEANING OUT ...

ANNUAL CADGEWITH FARMS

GARAGE SALE

JUNE 4, 2016

FROM 9 AM - 4 PM

COST IS \$2.00 PER HOUSEHOLD

PAY TO: JUDY KING AT 343 CADGEWITH EAST

THOUGHTS ON MOTHERS' DAY

"A Mother is she who can take the place of all others but whose place no one else can take."

"The goodness of a home is not dependent on wealth or spaciousness, or beauty or luxury."

Everything depends on the Mother."

"We are all mothers in special ways: Godmothers, big sisters, aunts or simply friends with children."

There are so many children already here who need love ~~~ it isn't necessary to be a mother to experience mothering."

"THE SOURCE OF HUMAN LOVE IS THE MOTHER."

Cadgewith Farms

May 2016

Safety

With the weather starting to warm up there will be more residents out enjoying the weather, walking the community, and working out in their yards. Please remember that the speed limit in our community is 15 mph. Federal Law. Also, remind any guests you may have to also make sure they slow down.

Happy Mother's Day

We would like to wish all of the mothers, stepmothers, mother-in-law's and grandmothers a Happy Mother's Day from all of us.

STOP solicitors

Over the last years we have had a large amount of solicitors come into the park. Please do your part and help stop them! If they do not come directly from Consumers, ATT, Dish, or Direct TV they should not be here. To identify if they come from one of those companies, they should have the following: Vehicle with logo on it, Attire with the company name, and a badge with their name. If they ask to see your bill, they are likely not from that company. If you have any question where they are from call 911, neighborhood watch, and or the company they say they are from. If you have not scheduled them to come, or they have not called beforehand I would never let them inside your home, and I would call 911 immediately.

Office Closing

The office will be closed Monday May 30, 2016 to observe Memorial Day. We will re-open on Tuesday May 31, 2016 with our normal business hours of 9 am - 12 pm.

Pond Treatment

We are having the pond treated to control the weeds and/or algae in it. We will be treating the lake once a month starting in April until the last week of September. During this time DO NOT eat any fish out of the pond. Due to the weather some of the dates may change and make sure that you look for the yellow signs that will be posted at the pond on Cadgewith East.

Pool Opening

The pool will be opening this month. Keep an eye on the board in front of the office for the exact date we will be opening. Again, the pool hours this year will be from 9am - 7 pm everyone is required to sign in.

Tips to enjoy safe and healthy foods from the market

Farmers markets are opening soon, so this is a great time to check food safety tips for bringing fresh produce home from the market.

Posted on April 11, 2016 by Eileen Haraminac, Michigan State University Extension

Farmers markets are opening soon with the new season of growing, so this is a great time to check food safety tips for bringing fresh produce home from the market.

Michigan State University Extension and the Centers for Disease Control and Prevention recommends:

- **Bag it.** If using reusable bags or totes, remember to wash and dry them thoroughly and to store in a clean, safe place. Foods can pick up bacteria and pathogens from different sources, so keep the bags clean.
- **Produce selection.** Food safety.gov recommends that we purchase produce that is not bruised or damaged. When selecting fresh fruit or vegetables look at the items appearance and the texture. Make sure the fruit or vegetables are not bruised or damaged. Fruit should feel heavy for its size. High quality, fresh vegetables are young, crisp and brightly colored.
- **Make sure all produce is bagged separately** from meat, poultry and seafood items for the trip home.
- **Meat or poultry needs to be kept in closed coolers or insulated bags** with adequate amounts of ice or freezer packs to maintain cool temperatures while traveling from the market to home.
- **Return home with purchases immediately** and refrigerate perishable foods within two hours or within 1 hour if the temperature is over 90 degrees Fahrenheit.
- **Be sure to wash hands for 20 seconds** before and after handling fresh produce or raw meats and poultry.

When storing your fresh produce and meats at home follow these recommendations:

- Separate produce from fresh meats, seafood and poultry, making sure that they do not leak on fresh fruit and vegetables causing cross contamination.
- Check the temperature in your refrigerator, it should be between 38 and 41 degrees F. If the temperature is too cold it can harm perishable produce, if too warm food can decay and in either case cause foodborne illnesses.

Enjoy the freshness the season offers in fruit, vegetables, meats and other foods. Keeping food safe helps to prevent foodborne illnesses, and handling the food purchased at the market correctly provides nutritional benefits for your family.
